

To Whom It May Concern:

I would like to recommend AK Construction sp. z o.o. as a professional and reliable business partner.

We have been cooperating with AK Construction since 2017 during several assembly & installation projects for Paper Machines or its components, executed on PMPoland's premises or final customer sites.

AK Construction team members were highly disciplined, skillful and experienced in field of paper machines equipment fabrication, installation and repairs. The scope of AK Construction's activities included preassembly and manufacturing of equipment for headboxes, presses and other various parts of PM section.

Due to excellent partnership, flexibility and knowledge about construction of machinery for pulp & paper industry AK Construction can be certainly considered as reliable supplier.

I am looking forward to work with AK Construction in the future and I would like to recommend the Company as dependable business partner.
